Warm and Cool Colors

The color wheel contains two groups of colors: warm and cool. The warm colors are red, orange, and yellow. Warm colors are bright and vivid. The cool colors are green, blue, and purple. Cool colors are calm and soothing. In art, warm colors are often used to make something stand out and draw attention, while cool colors can be used as a background.

Make a list of things or emotions you think of when you see warm and cool colors:

<table>
<thead>
<tr>
<th>Warm Colors</th>
<th>Cool Colors</th>
</tr>
</thead>
<tbody>
<tr>
<td>Fire</td>
<td>Ocean</td>
</tr>
<tr>
<td>Sun</td>
<td>Calm</td>
</tr>
<tr>
<td>Anger</td>
<td>Winter</td>
</tr>
</tbody>
</table>
Find 3 pieces of art: one primarily made with warm colors, one primarily made with cool colors, and one that is black and white. Answer the questions below:

1. **Artwork with warm colors**
   Name of artwork and artist:
   
   What colors do you see in the artwork?
   
   What mood has the artist created with these colors?
   
   How would the mood change if the artwork was made with cool colors?

2. **Artwork with cool colors**
   Name of artwork and artist:
   
   What colors do you see in the artwork?
   
   What mood has the artist created with these colors?
   
   How would the mood change if the artwork was made with warm colors?

3. **Artwork that is black and white**
   Name of artwork and artist:
   
   Why do you think the artist chose not to use color?
   
   What mood has the artist created by not using color?
   
   What colors would you add to the piece? Why?
   
   How would the mood change by adding these colors?
